

Witham Health Services gathered information and assistance with its Community Health Needs Assessment during 2015 and posted the report in February 2016. The 2015 Community Health Needs Assessment (2015 CHNA) can be located on the Hospital's website under "About Us" on the "Read More" page.

This is an addendum to the 2015 assessment and includes additional items required in Internal Revenue Code (IRC) section 501(r) that does not appear in the posted 2015 CHNA report. Management believes this supplemental information included in this report will address the additional information required under 501(r) and satisfy the disclosure requirements for IRS Revenue Procedure 2015-21 including:

- Conspicuously posting of the report
- Board approval
- Prioritization of the health needs identified in the CHNA report,
- Time period input was solicited for the CHNA report,
- Impact of action taken from the prior CHNA report
- Implementation strategy.

**2015 – Community Health Needs Assessment** Supplemental information for the “2015 Community Health Needs Assessment” (referred herein as “2015 CHNA”).

1.501(r)-3(b)(1)(ii)	<p><u>Assess the health needs of that community:</u> Identify significant health needs of the community, prioritize those health needs, and identify resources potentially available to address those health needs.</p>
Health Needs	<p>The 2015 CHNA report includes a “Summary of Findings” on page 16 list fourteen (14) significant health needs in the community, but does not prioritize the needs. A written plan has been adopted by the governing body prioritizing the needs and identify which ones will be addressed and which will not be addressed by the Hospital. Page 243 of the 2015 CHNA report does provide resources available to help address the significant needs identified.</p>
1.501(r)-3(b)(1)(iii)	<p><u>In assessing the health needs of the community, solicit and take input received from persons who represent the broad interest of the community, including those with special knowledge of or expertise in public health:</u> Time period all of the following sources were solicited for input: public health department; medically underserved, low-income, and minority populations or those that represent the members of this group; and written comments on most recently conducted CHNA and implementation strategy.</p>
Time Period	<p>The 2015 CHNA data time period were as follows:</p> <ul style="list-style-type: none"> <li>• Key informants were interviewed during June 2015.</li> <li>• Online key informant surveys were solicited from November, 2015 to 12-10-2015.</li> <li>• Telephone surveys were solicited in October 2015.</li> <li>• Four Focus Groups took place in November 2014, and two in January 2015, to include Lebanon, Thorntown, and Zionsville.</li> </ul>
Written Comments	<p>No comments were received from the public regarding the 2012 Community Health Needs Assessment.</p>
1.501(r)-3(b)(1)(iv)	<p><u>Document the CHNA in a written report that is adopted for the hospital facility by an authorized body of the hospital facility:</u> The report must be written and adopted (approved) by an authorized body of the hospital facility. The report must include: a definition of community served; description of process and methods used to conduct the CHNA; describe solicitation of input; description of prioritized significant health needs and process and criteria to identify the needs as significant; resources potentially available to address the needs; and evaluation of impact of any actions taken since the immediately preceding CHNA.</p>
CHNA Adoption	<p>The 2015 CHNA reports was presented to the governing body in December 2015, however, a formal vote was not made. The governing body approved the 2015 CHNA and Implementation Strategy at the April 26, 2017 Board of Trustees meeting.</p>

<p>Prioritization Process</p>	<p>The process for prioritizing the fourteen health needs identified in the 2015 CHNA report uses the benchmark data and key informant rankings and the 2015 CHIP report from the County health department to identify which needs are significant. Additional, evaluation by the governing body and management on the Hospitals ability to assist with the significant needs was completed.</p>		
	<b>2015 Health Need Identified</b>	<b>Addressing</b>	<b>Not Addressing</b>
	Access to Health Care Services	See Implementation Strategy Plan	
	Cancer	See Implementation Strategy Plan	
	Chronic Kidney Disease		Not addressing in the 2016-2018 Implementation Strategy plan. #14 out of 14 and no key informants ranked it as a major problem.
	Dementia/ Alzheimer	See Implementation Strategy Plan	
	Diabetes	See Implementation Strategy Plan	
	Heart Disease & Stroke	See Implementation Strategy Plan	
	Injury & Violence		Not addressing in the 2016-2018 Implementation Strategy plan. #11 out of 14. Other Boone County agencies address this.
	Mental Health	See Implementation Strategy Plan	
	Nutrition, Physical Activity & Weight	See Implementation Strategy Plan	
	Oral Health		Not addressing in the 2016-2018 Implementation Strategy plan. #10 out of 14. Dentist in the community are more equipped to address this need.
	Respiratory Diseases		Not addressing in the 2016-2018 Implementation Strategy plan. #13 out of 14.
	Sexually Transmitted Diseases		Not addressing in the 2016-2018 Implementation Strategy plan. #8 out of 14.
	Substance Abuse	See Implementation Strategy Plan	
	Tobacco Use	See Implementation Strategy Plan

**Adoption of Implementation Strategy**

On April 26, 2017, the Board of Trustee of Witham Health Services met to discuss this plan for addressing the community health priorities identified through our Community Health Needs Assessment. Upon review, the Board approved this implementation Strategy and the related budget items to undertake the measures to meet the health needs of the Community.
